

Emmanuel Campuzano Contreras

Fullstack Developer (Python & React)

Chihuahua, Chih. 31107

emmanuelcampu@gmail.com

+52 614 285 6785

Since 2020, I have been dedicated to creating solutions and making better software for large organizations. Formally, I started studying software in 2016, but since I was a child I am in love with the whole IT world. I'm a team worker, my thought about is that it's the key to success, I can relate that to my facility to talk with anybody, so be comfortable to contact me for a job! I speak 3 languages fluently: Spanish, English and French, I'm a good leader and my life philosophy is respect.

Dispuesto a trasladarse a: cualquier parte

Experiencia laboral

Software Engineer

Tecnología de Gestion y Comunicacion SA de CV - Chihuahua, Chih.

septiembre 2021 - Actualmente

I work as a fullstack software engineer, using Oracle technologies, under CMMI 5, always having a substantial control of each development done, also, based on TSP/PSP.

Using git, time control (process dashboard), agile methodology with SCRUM, and JIRA to manage each requirement

Blockchain for record team activities (internship)

Universidad Tecnológica de Chihuahua - Chihuahua, Chih.

mayo 2021 - agosto 2021

I developed a Client-Server application implementing Blockchain, python flask framework, react and Mongo, for recording sensors activities (like temperature, humidity, etc.)

Developer PHP

ConstructionX - Chihuahua, Chih.

septiembre 2020 - enero 2021

I worked as a backend developer, for an internal system of Construction X.

Front End Developer

Akam Sura S.A. de C.V. - Chihuahua, Chih.

agosto 2016 - octubre 2016

I made the frontend of the website for the civil association Akam Sura. Used technologies such as HTML and CSS, and PHP for the contact area, sending emails whenever someone wanted to communicate with the association.

Publicaciones

Tutorial Flask Blueprints

<https://www.youtube.com/watch?v=BfEjQTYgvhU>

marzo 2022

I detailed the development process of an API, using the Flask framework, Blueprints, and using MongoDB database.

Image Cloud App

<https://github.com/ShiWonWan/ImagesCloudApp>

septiembre 2021

I made a complete app to store your photos in the cloud, with login.

Distance to the MKAD API

https://github.com/ShiWonWan/distance_to_mkad

mayo 2021

I develop a Flask Blueprint to find the distance from the Moscow Ring Road to the specified address. The address is passed to the application in an HTTP request, if the specified address is located inside the MKAD, the distance does not need to be calculated.

Home page app

<https://github.com/ShiWonWan/HomePage>

julio 2021

This is a home page with a crud for bookmarks, developed in Flask.
